

# SUVARNABHUMI AIRPORT TERMINAL MAP GUIDE

A 3D isometric illustration of an airport terminal map guide. The title 'SUVARNABHUMI AIRPORT TERMINAL MAP GUIDE' is displayed in large, white, sans-serif capital letters across four dark blue, slanted rectangular banners. Below the banners, a white, stylized map of the terminal building is shown on a light grey base. The map features several green rectangular blocks representing different sections or gates. A white figure of a person is standing on the map, and a white arrow points towards the right. In the foreground, a blue question mark is visible. To the right, a sign reads 'INTERNATIONAL DEPARTURES' in white capital letters. The background is a solid teal color.

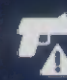

INTERNATIONAL  
DEPARTURES

**PREPARATION FOR SECURITY SCREENING BEFORE BOARDING AT SUVARNABHUMI AIRPORT**

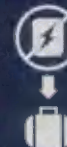

Before checking-in at the ticket counter, passengers must prepare for proceeding through the security checkpoint as follows:

- 

1. Keep liquids, aerosols, gels or other materials and substances with similar characteristics (LAGs) which are contained in containers of size over 100 ml. and all sharp objects in checked baggage because they are not permitted to be taken on board.
- 

2. If you want to take liquids, aerosols and gels on board (carry-on), they must be contained in containers of size not over 100 ml. All containers shall be placed together in a transparent zip-lock plastic bag size 20 x 20 cm. (provided at the security checkpoint). The overall capacity of liquids shall not exceed 1 liter for each passenger.
- 

3. Passengers who have guns and bullets must inform the airline staff at the check-in counter so that the documents shall be examined and bullets shall be separated in the prepared area.
- 

4. Passengers are not permitted to take dangerous substances or objects or animals which may be harmful to aircrafts and people in all types of aircrafts on board, no matter they are kept in checked baggage or carry-on baggage.
- 

5. Do not keep external charger or 'Power Bank' in checked baggage. It is permitted to take spare batteries in cabin baggage. A battery which capacity is 20,000 mAh is permitted for unidentified number. A battery which capacity is 20,000-32,000 mAh is limited for 2 pieces. A battery higher than 32,000 mAh is forbidden on-board.
